

COMMISSIONS & ACCOUNTING

From carrier statement to agent payout, reconciled.

PulseLedger is full commissions management — a guided commission cycle from import to payout, with every payee, override, and adjustment settled to the cent.

WHAT YOU GET

- ✓ **Guided commission cycle**
Import → match & post → reconcile → push payouts → close.
- ✓ **Compatible with DTCC Feeds**
Reconciled against total case premium.
- ✓ **Carrier schedule sets**
FYC, renewal, excess, and target-premium definitions, change-flagged.
- ✓ **Override waterfalls**
Rolling targets and bonus logic, reconciled per payee.
- ✓ **PDF statement ingestion**
KYRA extracts and maps commission rows from carrier PDFs.
- ✓ **Reconciled to the cent**
Per-payee statements your agents can trust.

Built for IMOs and BGAs who need commissions right, every time.
